Q.1.Explain the coupled wheels of locomotive mechanism.

Ans.

Links -

- link AD frame (Fixed)
- link AB (Crank)
- link BC (Coupling Rod)
- link CD (Crank)

Pairs -

- Turning Pair = AD (Frame) & AD (Crank)
- Turning Pair = AD (Frame) & CD (Crank)
- Turning Pair = AB (Crank) & BC (Connecting Rod)
- Turning Pair = CD (Crank) & BC (Connecting Rod)

Construction:

This mechanism is an inversion four bar kinematic chain . This has four turning pairs.

It is consists of frame AD which is fixed, on which two cranks AC & BD are fitted on it .The cranks are free to rotate about points A and D. Both the cranks have same lengths. Two cranks are connected to each other by means of coupling rod, which connects the other ends B and C of both cranks. At the connections B and C there is turning pair.

Working -

When link AB starts rotating about fixed point A. The rotary motion of wheel is transmitted to next wheel by means of coupling rod BC. As a result the other wheel also starts rotating in same direction and same speed, because both cranks have same radius of rotation.

Application -

The mechanism is used to connect driving & driven shaft of locomotive. Here both driving & driven wheels must rotate in same direction.

Links and Pairs analysis of each mechanism

Education in India WikipediaIndian education redirects here For other uses, see Indian school.. Certain post secondary technical schools are also private The private education market in India had a revenue of US4.. 1 It is important to clarify that while there are private schools in India, they are highly regulated in terms of what they can teach, in what form they can operate must be a non profit to run any accredited educational institution and all other aspects of operation.. While quantitatively India

is inching closer to universal education, the quality of its education has been questioned particularly in its government run school system.. In this pattern, study of 1 Junior colleges,1 The first 10 years is further subdivided into 4 years of primary education, 6 years of High School followed by 2 years of Junior colleges.
